PHILOSOPHY

Company GEHA Russia was established in order to meet the growing market demands and ensure qualities engineering services in the market.

The most important issue is the ability of the management to focus the real needs of the customers and guide them to their demands.

GEHA Russia has set itself the goal of absolute commitment to quality, high technical standards and meticulous project execution by locally and internationally experienced engineering specialists.

People with responsibility are planning and executing professional works for people with continually changing needs.

HISTORY

The history of company GEHA Russia started in the year 2007 when a group of entrepreneurs and engineers has understood that a good brand name is not enough anymore today.

Company GEHA Russia is executing projects now in Austria and Germany, Russia and Ukraine, and is developing still further with their portfolio of clients.

Company GEHA Russia has also a production plant for electrical and automatic components in Austria and Czech Republic and may so guarantee a good quality standard.

BUSINESS ACTIVITIES

COMPANY GEHA RUSSIA CARRIES OUT ALL DIFFERENT STEPS IN A PROJECT STARTING FROM THE DESIGNING STAGE TO THE TAKE OVER BY THE CLIENT AND THE AUTHORITIES AND DELIVERS SUPPORT THROUGHOUT ITS ENTIRE LIFECYCLE.

Our departments:

> Planning and design

The department is in charge for analysis of project documentation and planning of correspondent work schedules. Due to practical 'on-hand' experience our engineers are able to optimize the processes of equipment modernization and reconstruction of office buildings, supply of necessary parts and materials.

BUSINESS ACTIVITIES

> Electrical –Mechanical and Automatization Department

GEHA Russia specialists perform all kinds of service for any engineering systems and equipment; starting from traditional systems of sanitary, ventilation, air-conditioning and electrical supply up to audio- and video-systems and sophisticated automatization systems (building management systems).

BUSINESS ACTIVITIES

> Total Fit Out Works

We are working with a local partner company for the construction part to may execute offices or flats in total, what includes the following services:

- > Civil reconstruction
- > Electricity and lighting
- > Ventilation and air-conditioning
- > Smoke hatches, fire and sprinkler systems
- > Heating, water supply and sewer lines
- > Control, security, broadcasting and TV
- > Other systems and equipment by customer's request.

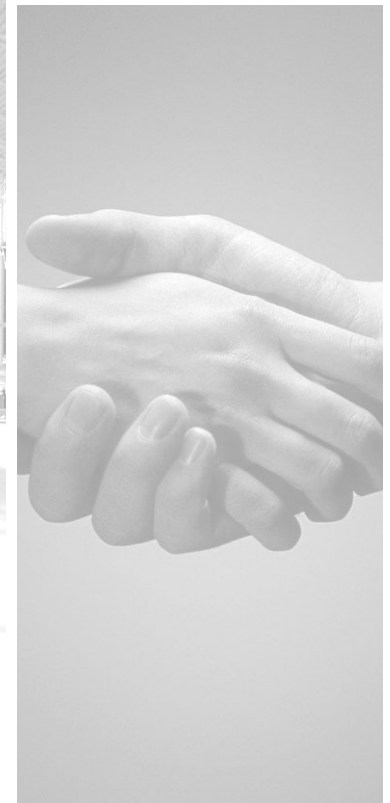

BUSINESS ACTIVITIES

> Audit and modernization (reconstruction)

The audit and modernization works provided by GEHA Russia includes:

- > Special equipment for testing works
(ventilation, air condition, medium and low voltage systems, etc)
- > Project management and development
- > Technical upgrade of systems and equipment
- > Modernization of existing systems and equipment
- > Technical consultancy simultaneously with the construction process
